🪪 Profile

I am a grounded & solution-oriented person with a wide variety of technological exposure looking to gain experience in Development or DevOps/Cloud-based roles. I am adept at adjusting to work and situations.

🏠 Organizations

Instantpost
DevOps Intern
Mar 2023 – Aug 2023 | Bangalore, India

Placement Committee
Member
Jul 2020 – Oct 2020 | Ujjain, India

🧩 Work Experience

Setting up Identity and Access Management
Setting a single central Iam for all our applications as well as self-hosted GitLab
Tech Stack: Keycloak

Automating the infrastructure & Deployment
Created Terraform & Ansible code for self-hosted gitlab, keycloak and 3 tier headless wordpress architecture sitting behind a HAproxy load-balancer. Also creating Jenkins pipelines
Tech Stack: Ansible, Terraform, Bash, Jenkins

Architecture Evolution Over AWS
Monolithic to Monolithic (tiered) to Monolithic (tiered) with ELB (Reverse proxy) + ASG
Tech Stack: VPC, Subnets, Internet Gateway, Ec2, NAT Gateway, ASG, ELB, EFS, RDS

🧠 Skills

Object Oriented Progamming ● ● ● ○ ○
C++, Python

Version Control System ● ● ● ○ ○
GIT, GitHub, GitLab

Front-End Development ● ● ● ○ ○
HTML, CSS, Javascript, Reactjs, Figma, Axure rp-9, Electron

Linux Administration ● ● ● ○ ○
Proxmox, Shell Scripting

Containerization and orchestration ● ● ● ○ ○
Docker

Cloud Platform ● ● ● ○ ○
AWS: Ec2, S3, Lambda, Amazon VPC, RDS

Computer Networks ● ● ● ○ ○
Networking and security protocols

Identity and Access Management ● ● ○ ○ ○
Keycloak

Automation Tools ● ● ● ○ ○
Terraform, Ansible, Jenkins

Database Management ● ● ● ○ ○
ER Diagram, Relation Schema, MySql, SQlite

🎖 Verified Certificates

AWS Certified Solutions Architect – Associate ↗
2022 – 2025

Organizations IP Planning

Allocating IP's for VPC, Subnets based on the number of Availability Zone's & Tiers

Hosting Website over AWS (Serverless Architecture)

Tech Stack: API Gateway, S3 (static website hosting), State-Machine, Lambda function, Simple Email Service, EventBridge, CloudFormation, Simple Notification Service

Language Learning Website

Creating a website to host/connect different linguistic people thereby making language learning as easy as abc.
Tech Stack: HTML, CSS, JavaScript, PHP

Restaurant Website

Responsive & Dynamic, Single Page Web-Application with Form Validation & Search Algorithm
Tech Stack: React, MySQL, PHP, HTML, CSS, Bootstrap, JavaScript

Inventory Management Desktop App

Tech Stack: Electron, SQLite, MySQL

🎖 Extra-Curricular Certificates

- Introduction to DevOps and SRE ⧉
- AWS Cloud Practitioner ⧉
- Cloud Computing (NPTEL) ⧉
- Introduction to Data Science (IBM) ⧉
- Python Basics for Data Science (IBM) ⧉
- Introduction to Linux ⧉
- Cyber Security pathway ⧉
- Entrepreneurship ⧉

🎓 Education

Computer Science & Engineering

Avantika University ⧉

Ujjain, India

CGPA (Till 7th Sem): **8.59**

12th Class
